SOFTWARE

OBJECTIVES OVERVIEW

- Identify the four categories of application software
- Describe the characteristics of a user interface
- Identify the key features of widely used business programs
- Identify the key features of widely used graphics and multimedia programs
- Identify the key features of widely used home, personal and educational programs
- Discuss Web Applications
- Identify the types of application software used in communications
- Describe the learning aids available for application software

APPLICATION SOFTWARE

- Application software consists of programs designed to make users more productive and/or assist with personal tasks.
  - To make business activities more efficient
  - To assist with graphics and multimedia projects
  - To support home, personal, and educational tasks
  - To facilitate communications

APPLICATION SOFTWARE

Four Categories of Application Software

Business

- Word Processing
- Spreadsheet
- Database
- Presentation
- Note Taking
- Personal Information Manager (PIM)
- Business Software for Phones
- Business Software Suite
- Project Management
- Accounting
- Document Management
- Enterprise Computing

Graphics and Multimedia

- Computer-Aided Design (CAD)
- Desktop Publishing (for the Professional)
- Paint/Image Editing (for the Professional)
- Photo Editing (for the Professional)
- Video and Audio Editing (for the Professional)
- Multimedia Authoring
- Web Page Authoring

Home/Personal/Educational

- Software Suite (for Personal Use)
- Personal Finance
- Legal
- Tax Preparation
- Desktop Publishing (for Personal Use)
- Paint/Image Editing (for Personal Use)
- Photo Editing and Photo Management (for Personal Use)
- Clip Art/Image Gallery
- Video and Audio Editing (for Personal Use)
- Home Design/Landscaping
- Travel and Mapping
- Reference and Educational
- Entertainment

Communications

- Web Browser
- RSS Aggregator
- E-Mail
- Blogging
- Instant Messaging
- Newsgroup/Message Board
- Chat Room
- FTP
- Text, Picture, Video Messaging
- VoIP
- Video Conferencing

APPLICATION SOFTWARE

- Available in a variety of forms:
  - Packaged Software
  - Custom Software
  - Web Application
  - Open Source Software
  - Shareware
  - Freeware
  - Public-Domain Software

APPLICATION SOFTWARE

- Packaged Software
  - is designed for mass distribution and general use.
  - It’s ready-made, standardized, and typically sold as a bundle.

Productivity Tools
- MS Office
- Google Workspace
- Libre Office

Business & Finance Tools
- SAP
- Oracle ERP

Internet and Communication Bundle
- Mozilla Thunderbird + Firefox
- MS Teams + Outlook
- Zoom + Zoom Chat

APPLICATION SOFTWARE

- Custom Software
  - is built specifically for a particular organization or user to meet unique needs that off-the-shelf software can't fully address..

Healthcare
- Telemedicine
- Electronic Health Record System (EHR)

Fast Food & Retail
- Self-Service Kiosk
- Inventory & POS System

APPLICATION SOFTWARE

- Web Application
  - refers to programs that run in a web browser and deliver interactive functionality over the internet - no installation required.
    - Google Docs (real-time document editing & collaboration)
    - Gmail (Email management and communication)
    - Trello (task and project organization)
    - Facebook (Social Networking and Media Sharing)
    - Netflix (Streaming video content)
    - Canva (Graphic design and content creation)

APPLICATION SOFTWARE

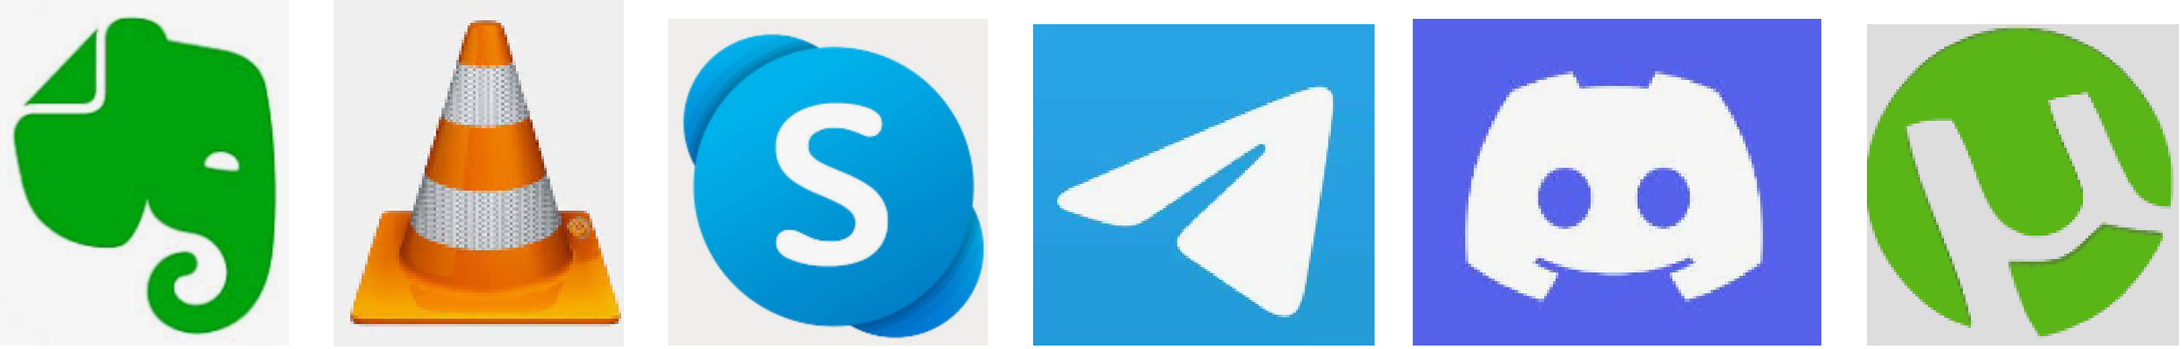

- Open-Source Software (OOS)
  - Software with publicly accessible source code.
    - Operating System
      - Linux
    - Web
      - Mozilla Firefox
    - Database
      - MySQL
    - Programming
      - Python
    - Productivity
      - LibreOffice

APPLICATION SOFTWARE

- Shareware
  - Software distributed for free on a trial basis, often with limited features or time restrictions.
    - WinZIP
    - WinRAR
    - AVG Antivirus
    - Adobe Photoshop

APPLICATION SOFTWARE

- Freeware Application Software
  - Software you can use at no cost

APPLICATION SOFTWARE

- Public Domain Application Software
  - Refers to programs that are completely free to use, modify, and distribute, with no copyright restrictions.
    - BASIC computer games (Snake)
    - 4DOS - command-line shell for DOS Systems
    - Tetris (original soviet version) - initially released without copyright protection

BUSINESS SOFTWARE

- Business software is application software that assists people while performing business activities
  - Word Processing
  - Spreadsheets
  - Database
  - Presentation
  - Note-taking
  - Personal Information Manager
  - Project Management
  - Document Management
  - Accounting
  - Software Suite

BUSINESS SOFTWARE

- Enterprises typically require special computing solutions for various functional units
  - Human Resources
  - Accounting
  - Engineering
  - Marketing
  - Sales
  - Distribution
  - Customer Service
  - Information Technology

BUSINESS SOFTWARE

- Graphics and Multimedia Software
  - Computer-Aided Design (CAD) Software
  - Desktop Publishing Software
  - Paint/Image Editing Software
  - Professional Photo Editing Software
  - Video and Audio Editing Software
  - Multimedia Authoring Software

SOFTWARE FOR HOME, PERSONAL AND EDUCATIONAL USE

- Personal Finance Software
- Legal Software
- Tax Preparation Software
- Personal Paint/Image Editing Software
- Personal Photo Editing Software
- Clip Art/Image Gallery
- Video and Audio Editing Software
- Home Design/Landscaping Software
- Entertainment Software

WEB APPLICATIONS

- A web application (Web App) is a website that allows users to access and interact with software from any computer or device that is connected to the internet

Popular Web Applications

Program Name	Type of Application Software	Program Name	Type of Application Software
Britannica.com	Reference	**MSN Encarta**	Reference
Dictionary.com	Reference	**Photoshop Express**	Photo Editing
Flickr	Photo Editing and Photo Management	**Picnik**	Photo Editing
		TaxACT Online	Tax Preparation
Gmail	E-Mail	**TurboTax Online**	Tax Preparation
Google Docs	Productivity Suite	**Windows Live Calender**	Personal Information Manager
Google Earth	Travel and Mapping	**Windows Live Hotmail**	E-Mail
Google Maps	Travel and Mapping	**YouSendIt**	File Transfer and E-Mail

APPLICATION SOFTWARE FOR COMMUNICATIONS

- Blog
- Web browser
- Chat
- Online Discussion
- Email
- File Transfer
- Internet Phone
- Instant Messaging
- Mobile Messaging
- Video Conference

SUMMARY

- How to start and interact with application software
- Overview of a variety of business software, graphics and multimedia software, and home, personal, educational, and communications software
- Web Applications
